

钢铁力量 驱动世界
Steel power drives the world

Customer-centered
Put the strivers first
Welcome to Wisdom!

Company profile ●●

Hebei Zhihui is located in the Xinqiao Industrial Park Xingjian New District of Wen 'an County, which is home to many well-known enterprises. It is situated in the heart of the Bohai Rim Economic Circle, 120 kilometers north of the capital Beijing and 60 kilometers east of Tianjin.

Since its full-scale operation in 2015, Hebei Zhihui has achieved remarkable accomplishments in the production and research and development of high-quality and special steel, galvanized steel, and color steel building materials through years of meticulous management. The above-mentioned core products, with their outstanding corrosion resistance, beautiful appearance and reliable durability, are widely used in multiple fields such as construction, automobiles, home appliances, steel structures and decoration.

Hebei Wisdom covers an area of 85,359 m² and has 318 employees. At present, there are 9 leading automated production lines in the country, including 3 production lines for 180,000 tons of aluminized zinc-silicon sheet and strip per year, 5 production lines for 150,000 tons of rolling mills per year, and 1 production line for

Company profile ●●

400,000 tons of pickling per year. In addition, it is equipped with waste acid regeneration production lines and hydrogen and nitrogen production facilities. The production equipment is advanced and the technical force is strong.

Research and Development Center

About us ●●

The corporate culture of Hebei Zhihui takes "customer first, honest operation, and innovation-driven" as its core values.

The company always prioritizes the needs and satisfaction of its customers and is committed to winning their trust and loyalty through high-quality products and services. Adhere to the principle of good faith, open up the market and establish the brand image with good faith; At the same time, it attaches great importance to technological innovation and management innovation, taking innovation as the core driving force for enterprise development, and adhering to the development trend of "technological innovation and keeping pace with The Times".

We sincerely hope to create a win-win future together with all our new and old customers!

We sincerely welcome friends from all walks of life to visit Hebei Wisdom, guidance and business negotiations!

Hot dip galvanizing production line

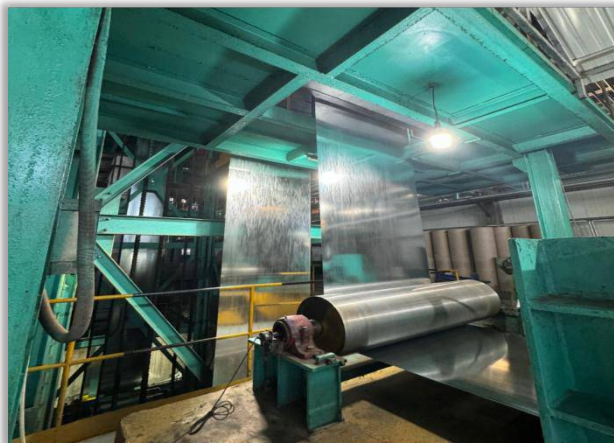

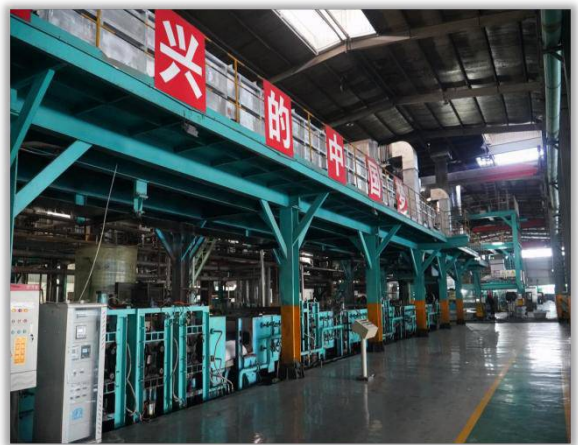

Hot dip galvanizing production line ●●●

A tree grows from a tiny sprout; a tower rises from a pile of earth.

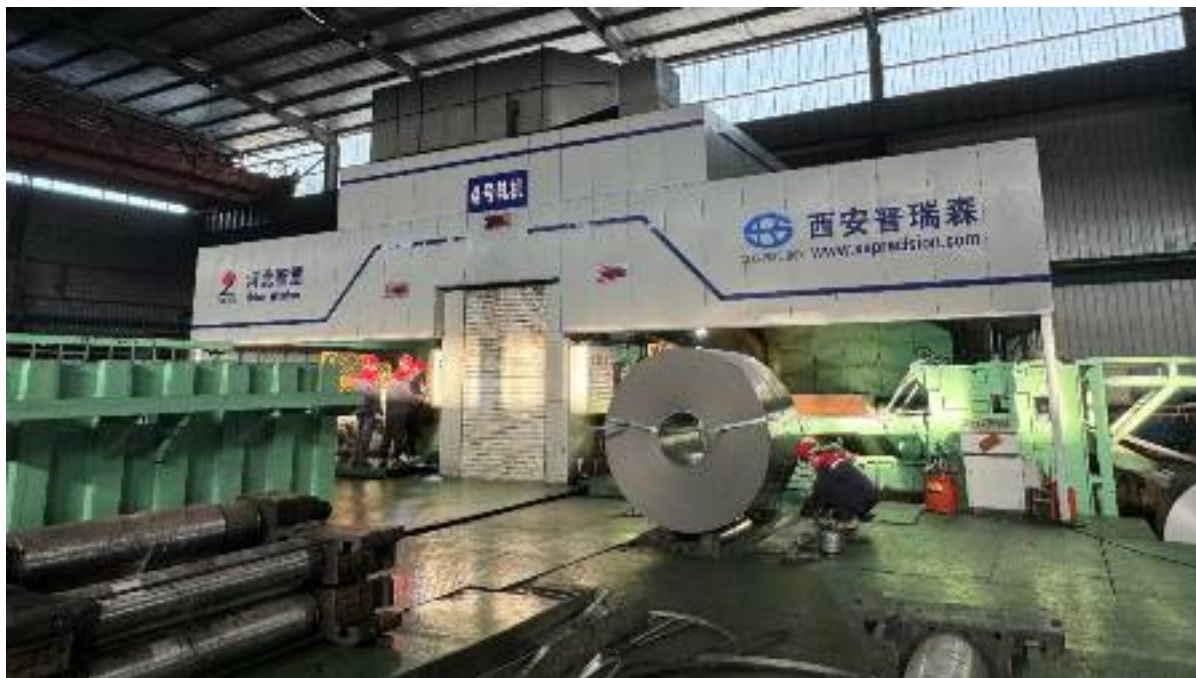

High - quality boards start with careful raw material selection and craftsmanship.
We build a technology - leading steel foundation with meticulous work.
Persist in in - depth development.
Advance through innovation.

Continuous pickling production line

Rolling mill production line

HEBEI WISDOM
——First-class equipment,
internationally leading.

Bell annealing furnace production line

A workman must first sharpen his tools if he is to do his job well. Advanced equipment and spacious workshops are the display of our strong strength and also the witness of our development history. Excellent equipment represents a powerful production guarantee capacity and ensures outstanding product quality

钢铁力量 驱动世界
Steel power drives the world

Product use ●●●

I . Machine building

II . Steel structure industry

III. Home appliance industry

IV. Automobile industry

Product advantage ●●●

🏆 High purity and high uniformity

🏆 Ultrafine structure

🏆 High precision

🏆 Corrosion resistance

🏆 High temperature and high pressure resistance

🏆 Customized production

Co-create, co-progress, and co-win!
